

Leadership Series II

Next level skills for leaders with a year or more experience

This six-part series provides managers and supervisors with the skills to continue their success as leaders. Sessions cover the principles of the topic and the practical application in the learner's work world. Leadership II provides an ideal follow-up to Leadership I and draws on the experience participants have acquired in their leadership roles. Tim facilitates each topic as an interactive, dialog based learning event, in full or half-day sessions.
